The Alberta Journal of Educational Research

Published in Spring, Summer, Fall, and Winter by the Faculty of Education, University of Alberta.

_ajer_ is a quarterly journal devoted to the dissemination, criticism, interpretation, and encouragement of all forms of systematic inquiry into education and fields related to or associated with education.

**Editor:** Larry Prochner  
**Technical Editor:** Naomi Stinson  
**Book Review Editor:** Ingrid Johnston  
**Proofreader:** Karen McFarlane

Call for Papers

Theme Issue:  *Expanding Knowledge Systems in the Teacher Education Program*

Guest Editor:  Cora Weber-Pillwax, Jennifer Kelly, Lynette Shultz, and Elizabeth Lange

The *Alberta Journal of Educational Research* invites submissions from researchers whose interests include exploring the potential for Indigenous and other knowledge systems to revitalize and revolutionize teacher education programs in Canadian and international contexts.

In the past 20-30 years, teacher education has emphasized diversity, sustainability, and globalization as foundational concepts underpinning other standard elements: managing the learning environment, student assessment, and core curricular content. Recently critical scholarship has pointed out that the theories and praxes of these concepts have not been sufficiently developed to respond fully to the concerns of the vulnerable populations most directly implicated in the meanings, discourses, and applications of such terms. For example, the children who are gradually filling most of the seats in standard classrooms increasingly are Indigenous people or immigrants. Experiences in these classrooms reflect models of teacher education that are confined to the parameters and limitations of a Western intellectual tradition. The literature contains many stories of failure in relation to these experiences.

Given the inadequacies of the Western intellectual tradition to create or develop effective educational programming to meet the needs of all students, it seems incumbent on educational researchers to consider seriously how other, particularly Indigenous, knowledge systems can contribute to contemporary teacher preparation programs.

Because North American teacher education systems are marketed and modeled in other countries, it follows that other knowledge systems are affected. Where the Western intellectual tradition underlying teacher education programs has had to face serious challenges to its inherent binary oppositional thought and epistemological dualism, postmodern theorizing has posited explanations and resolutions to this Western breaking apart of its meaning structures. Indigenous scholars, however, speak critically of postmodernism as merely another attempt to maintain Western domination.

Submissions must be received by **September 15, 2008**

Authors planning to submit a manuscript should first send a statement of intention (250 words) well before September 15 in order to receive feedback on the appropriateness of the proposed article. Abstracts, intention statements, suggestions, and inquiries should be sent to: Cora Weber-Pillwax, University of Alberta, by e-mail ckw@ualberta.ca; or fax (780) 492-2024.

Send manuscripts, indicating consideration for the Theme Issue, to Cora at ajer@ualberta.ca
Guidelines for Contributors

Submission of a manuscript to the Alberta Journal of Educational Research (ajer) implies, and is an undertaking on the part of the author(s), that neither the manuscript nor any substantially similar manuscript has been published, is in press, or is under consideration elsewhere. This is a condition for publication in ajer. Prior to publication, authors will assign their copyright to ajer by means of a standard form.

Format
Use a standard typeface and size such as Times New Roman 12 pt. and double-space throughout, including block quotations, references, and notes. Manuscripts are not to exceed 6,500 words excluding graphics. Please indicate the word count (text only) in the cover letter accompanying manuscripts. Provide an abstract of approximately 100 words either in a separate file or on a separate page. To ensure anonymity in the review process, the author’s name and affiliation should appear only on the title page; the title alone heads the first page of the manuscript.

Style
ajer’s editorial style conforms closely to the Publication Manual of the American Psychological Association (5th ed.). Manuscripts that do not conform may either be returned for adjustment, or editorial changes may be made. For spelling consult Webster’s New Collegiate Dictionary. Spelling in quoted material must remain as in the original.

Referencing
Sources cited appear in parentheses after each reference (direct or otherwise), giving author’s name (unless mentioned in text), year of publication, and page number(s) in the case of direct quotes. Enclose quotes of 40 or fewer words in double quotation marks in the text; indent quotes longer than 40 words in block format. Page numbers must be given.
List all sources alphabetically at the end of the manuscript under the heading References using the APA style.

Footnotes are not allowed, and the use of endnotes is discouraged; however, necessary brief explanatory notes, numbered consecutively and marked in the text with superscript numerals, may appear before the References under the heading Notes; citations in notes follow the same format as other references.

Graphics
Number tables and figures with Arabic numerals, and provide each on a separate page at the end of the manuscript. Prepare tables using tabs and without vertical lines. Figures, charts, and diagrams may be submitted electronically either in GIF or JPEG formats, or in camera-ready hard copy. Indicate placement of figures and tables in text, e.g., Insert Figure 3 about here.

Submitting
To help ensure an efficient review process, it is preferred that authors submit their manuscript and abstract electronically, either as e-mail attachments or as files on a high-density diskette. The preferred file formats are Microsoft Word for Windows and Microsoft Word for Macintosh. Rich Text Format (RTF) is also acceptable from either platform. If submitting a diskette, label it with originator’s name, program used, and program version number.

Research Notes
The Research Notes section provides a means for educational researchers to communicate with one another about their research-in-progress. Because ajer is so widely indexed nationally and internationally, it is effective in supporting such exchanges. The Research Notes are also a useful means for reporting on smaller research
projects that have one or two findings of particular interest but do not warrant full-article treatment.

The Note should report briefly on the author’s/authors’ research-in-progress or recently completed research and should feature work that has not been reported elsewhere in journal publications. This current work should be situated, briefly, in the context of other pertinent scholarship, including the author’s or authors’ related research. The focus of the Note could be either a specific study or an overview of an ongoing line of inquiry where fuller reporting of results will not occur in print for some time. The maximum length for a Note is 1,000 words, excluding references and one or two tables or graphs. Please include a word count in your cover letter and a copy of the document either as an e-mail attachment or on diskette. Acceptable file formats are Microsoft Word for Windows and Microsoft Word for Macintosh or Rich Text Format (RTF) from either platform. To encourage communication between researchers, authors of Research Notes are asked to provide contact information including a one-line biographical note, full mailing address, e-mail, fax, and/or telephone numbers for publication with each Note. This biographical and contact information should be included in the document file on the diskette submitted. No abstract is required, but in all other respects the usual ajer guidelines for manuscripts should be observed.

Submissions to Research Notes will be reviewed for readability, rationale, clarity, logic, organization, length, and adherence to all Alberta Journal of Educational Research (ajer) guidelines. Any submission that is judged to meet these criteria will be published as soon as possible. Any submission that is judged to require revisions according to the criteria outlined will not be published, and revisions will not be invited as the Notes must be current if they are to serve the purposes identified.
