## Guidelines for Contributors

Submission of a manuscript to *The Alberta Journal of Educational Research (ajer)* implies, and is an undertaking on the part of the author(s), that neither the manuscript nor any substantially similar manuscript has been published, is in press, or is under consideration elsewhere. This is a condition for publication in *ajer*. Prior to publication authors will assign their copyright to *ajer* by means of a standard form. •

### *Guidelines*

#### *Format*

Submit an original and three copies of the manuscript. When the manuscript includes references to the author's/authors' work, include two originals, one complete, and a second in which references to the author's/authors' works have been replaced by Author A, Author B, and so forth (in order of occurrence) in the text and at the end of the references. The three copies submitted should be made from the second original. Manuscripts are not to exceed 6,500 words excluding graphics. Please indicate the word count (text only) in the cover letter accompanying manuscripts. Use standard type and double-space throughout, including block quotations, references, and notes. To ensure anonymity in the review process, the author's name and affiliation appear only on the title page; the title alone heads the first page of the manuscript.

Provide an abstract of approximately 100 words on a separate sheet.

#### *Style*

*ajer's* editorial style conforms closely to the *Publication Manual of the American Psychological Association* (4th ed.). Editorial changes may be made to manuscripts. For spelling consult *Webster's New Collegiate Dictionary*; spelling in quoted material remains as in the original.

#### *Referencing*

Sources cited appear in parentheses after each reference (direct or otherwise), giving author's name (unless mentioned in text), year of publication, and page number(s) in the case of direct quotes. Enclose quotes of 40 or fewer words in double quotation marks in the text; indent quotes longer than 40 words in block format. Page numbers must be given.

List all sources alphabetically at the end of the manuscript under the heading *References* using the APA style.

Footnotes are not allowed, and the use of endnotes is discouraged; however, necessary brief explanatory notes, numbered consecutively and marked in the text with superscript numerals, may appear before the References under the heading *Notes*; citations in notes follow the same format as other references.

#### *Graphics*

Number tables and figures with Arabic numerals and provide each on a separate page at the end of the manuscript. Prepare tables using tabs and without vertical lines; provide figures, charts, and diagrams in print-ready form. Indicate placement of figures and tables in text, i.e. *Insert Table 3 here*.

### *Diskettes*

If the manuscript is accepted for publication, please supply in electronic form on a diskette. Microsoft Word and WordPerfect for PC or Macintosh are the preferred software. Mark diskette with originator's name, program used, and program version number.

### *Research Notes*

The *Research Notes* section provides a means for educational researchers to communicate with one another about their research-in-progress. Because **ajer** is so widely indexed nationally and internationally, it is effective in supporting such exchanges. The *Research Notes* are also a useful means for reporting on smaller research projects that have one or two findings of particular interest but do not warrant full-article treatment.

The *Note* should report briefly on the author's/authors' research-in-progress or recently completed research and should feature work that has not been reported elsewhere in journal publications. This current work should be situated, briefly, in the context of other pertinent scholarship, including the author's or authors' related research. The focus of the *Note* could be either a specific study or an overview of an ongoing line of inquiry where fuller reporting of results will not occur in print for some time. The maximum length for a *Note* is 1,000 words, excluding references and one or two tables or graphs. Please include a word count in the cover letter, as well as a copy of the document file on a diskette in Microsoft Word or WordPerfect for PC or Macintosh. To encourage communication between researchers, authors of *Research Notes* are asked to provide contact information including a one-line biographical note, full mailing address, e-mail, fax, and/or telephone numbers for publication with each *Note*. This biographical and contact information should be included in the document file on the diskette submitted. No abstract is required, but in all other respects the usual **ajer** guidelines for manuscripts should be observed.

Submissions to *Research Notes* will be reviewed for readability, rationale, clarity, logic, organization, length, and adherence to all **ajer** guidelines. Any submission that is judged to meet these criteria will be published as soon as possible with efforts to minimize the usual delays in moving submissions to publication. Any submission that is judged to require revisions according to the criteria outlined will not be published, and revisions will not be invited, as the *Notes* must be current if they are to serve the purposes identified.
