

Knowledge Mobilization in Community-based Arctic Research

Melanie Flynn^{1,2} and James D. Ford¹

TABLE S1. An overview of key Indigenous groups and languages spoken across the North American Arctic.¹

Region	Population identifying as Indigenous	Indigenous languages spoken
Alaska	15% of the population identify as an Alaskan Native Tribal group member. Recognized tribal groups: Yupik, Inupiat, Dene, Tlingit-Haida, Aleut, and Tsimshian	Twenty recognized languages: Ahtna, Unangam Tunuu/Aleut, Alutiiq/Sugpiaq, Dena'ina, Deg Xinag, Eyak, Gwich'in, Haida, Han, Holikachuk, Inupiaq, Koyukon, Tanana, Tanacross, Tlingit, Tsimshian, Upper Kuskokwim, Upper Tanana, Central Alaskan, Yup'ik Siberian, Yupik
Yukon	25% of the population identify as Indigenous (majority First Nation). 14 recognized groups of First Nation communities: Carcross/Tagish First Nation, Champagne and Aishihik First Nations, First Nation of Na-Cho Nyâk Dun, Kluane First Nation, Kwanlin Dün First Nation, Liard First Nation, Little Salmon/Carmacks First Nation, Ross River Dena Council, Selkirk First Nation, Ta'an Kwäch'än Council, Tr'ondëk Hwéch'in, Teslin Tlingit Council, Vuntut Gwitchin First Nation, White River First Nation The region also has eight transboundary Indigenous groups: Gwich'in Tribal Council, Tetlit Gwich'in Council, Inuvialuit, Acho Dene Koe First Nation, Kaska Dena Council, which represents Daylu Dena Council, Dease River First Nation, Kwadacha First Nation, Taku River Tlingit First Nation and Tahltan Central Council	Eight Indigenous language groups: Gwich'in, Hän, Kaska, Northern Tutchone, Southern Tutchone, Tagish, Upper Tanana, Tlingit
Northwest Territories	50% of the population identify as Indigenous. About 9% are Métis, 11% are Inuvialuit, the Dene make up about 30% of the territorial population. Five main Dene groups: Chipewyan, Tłı̨chǫ, Yellowknives, Slavey (North Slavey and South Slavey), Inuinnaqtun, English, and French and Sahtu Dene.	Eleven official languages: Chipewyan, Cree, Tłı̨chǫ, Gwich'in, North Slavey, South Slavey, Inuktut, Inuvialuktun, Inuinnaqtun, English, and French
Nunavut	85% of the population are Inuit	84% of residents speak an Inuit language
Inuvialuit Settlement Region	57.3% identify as Inuit	19% of residents speak an Inuit language
Nunavik	88.9% are Inuit	89% of residents speak an Inuit language
Nunatsiavut	88.8% of the population are Inuit	14% of residents speak an Inuit language

TABLE S3. Outline of coding categories.

Initial coding		Thematic coding (First round)	Thematic code (final)	Overarching principle	Cross-cutting principle
Flexible project design	Planning		Understand protocol	Principles of respect	
KMb from the onset					
Planning – General					
Timing and logistics					
Cross scale		Create meaningful relationships		Principles of researcher responsibility	
Discussion and negotiation	Engagement	Create meaningful relationships			
Engagement – Other		Understand protocol			
Formal/mutual rules		Reconcile research			
Long-term					
Participation					
Relationships					
Trust and respect					
2-way communication		Communication techniques & tools	Tailor communication modes	Principles of mutual understanding	
Communication – Other					
Frequent interaction					
Methods/tools					
Partnerships for communication					
Style					
Outputs	Usable Science		Tailor communication modes	Principles of mutual understanding	
Pertinence					
Quality					
Timeliness					
Uncertainty					
Usable science – General					
Coproduction	Inclusive knowledge		Include different knowledge systems	Principles of mutual understanding	
Different ways of knowing					
Inclusive knowledge – General					
Integration process					
Local knowledge					
Practical knowledge					
Traditional knowledge					
Adaptive	Context		Include different knowledge systems	Principles of mutual understanding	
Broad scale					
Context – Other implementation					
Local needs					
Problem insight – Solution insight					
Adapt products to fit culturally	Cultural Values		Follow protocol	Principles of researcher responsibility	Principles of respect
Cultural protocols			Reconcile research		
Power relations and historical legacy					
Respect					
Risk perceptions					
Added following interview coding	“Shift”		Acknowledge value of KMb	Principles of researcher responsibility	Principles of respect
Understand protocol	“They get it”		Reconcile research		
Acknowledge value of KMb			Create meaningful relationships		
Reconcile research
