ABSTRACTS OF ENGLISH STUDIES was founded in 1958 by members of the University of Colorado Department of English. The editorial offices are now at THE UNIVERSITY OF CALGARY, ALBERTA. AES appears four times a year (the fourth number includes the Annual Index). At present approximately 500 journals and numerous monographs are screened for material dealing with American and English literature, world literature in English and related languages, and English language. These articles are abstracted by volunteer contributors and field editors.

AES abstracts are designed to indicate the content of the article or monograph as concisely as possible and without editorial bias. The abstracts state the thesis, express the method of development, and point to the major implications. Any subject mentioned in the abstract is covered significantly in the article. The abstract is intended as a quick guide to the basic utility of the article or monograph and should not be considered a substitute for the original.

Reference to the source of the article or monograph immediately follows the title, the journal or monograph title being abbreviated. A key to the abbreviations in all current issues immediately precedes the abstracts.

AES provides quarterly and annual indices, which are keyed to item number, not page number. The index contains, in a single alphabetical listing, two major types of entries: (1) names of people referred to significantly and (2) subjects treated. Generally the subject categories are used when the article is concerned with concepts, theories, themes, etc.

AES is issued four times a year (the fourth number containing an annual index) from the English Department, University of Calgary.
